Introduction

Sally Chambers - GhentCDH and DARIAH

User requirements for a web archive

Eveline Vlassenroot – imec-mict-UGent

Research question:

What are the requirements and needs of potential users of web archives?

How do they, or do they want to, access, use and consult web archives?

Methodology

- Survey with a local, regional, national and international focus
- Ran 2 months (April 2018 - end of May 2018)
- 3 languages: Dutch, French and English
- Total: 587 respondents (after cleaning: 399)

KBR :

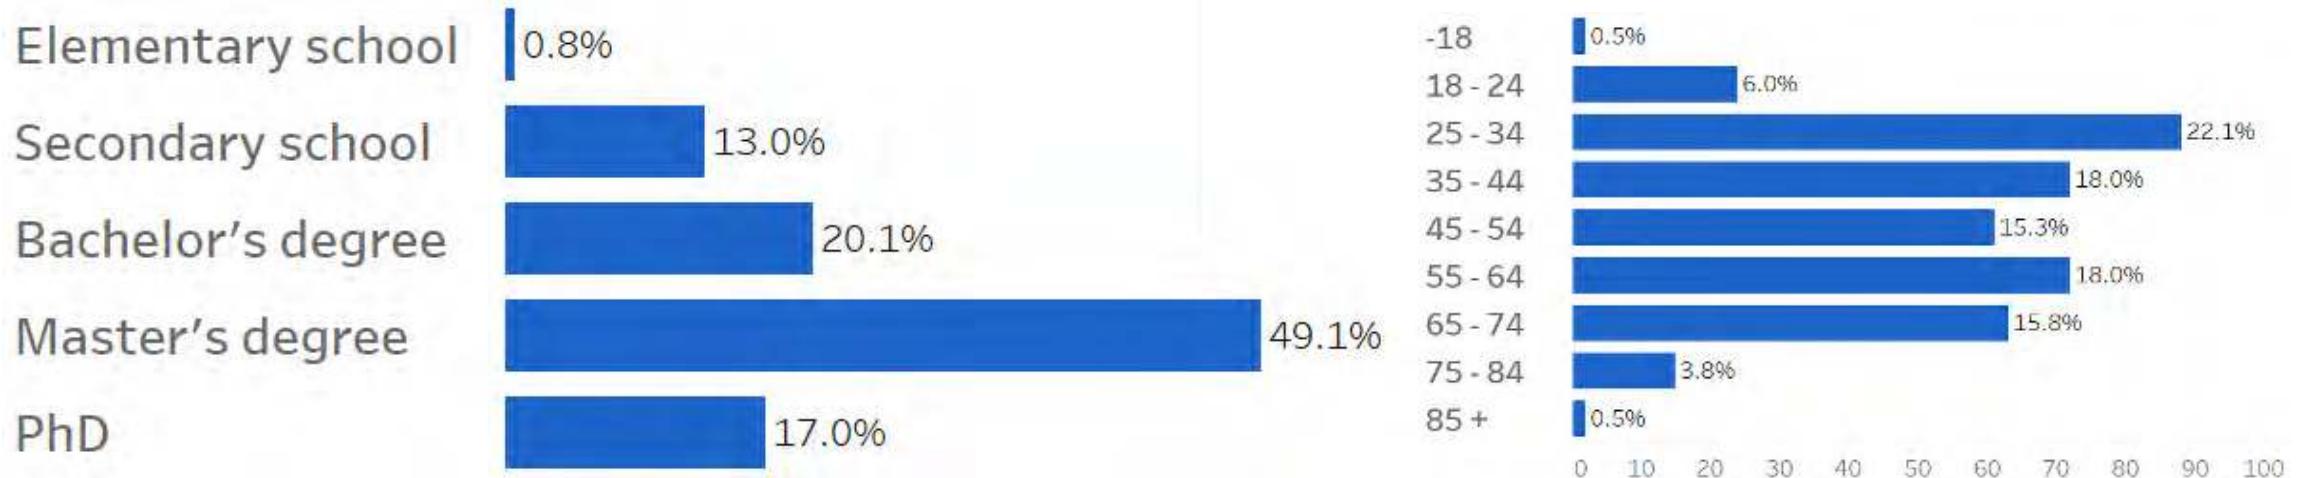

Target groups

- 1. Research:** students, academics, anyone involved in research more broadly
- 2. Archives, libraries and governmental institutions**
- 3. General public**

Socio demographics (n=399)

Are you aware of the existence of web archives? n=397

KBR

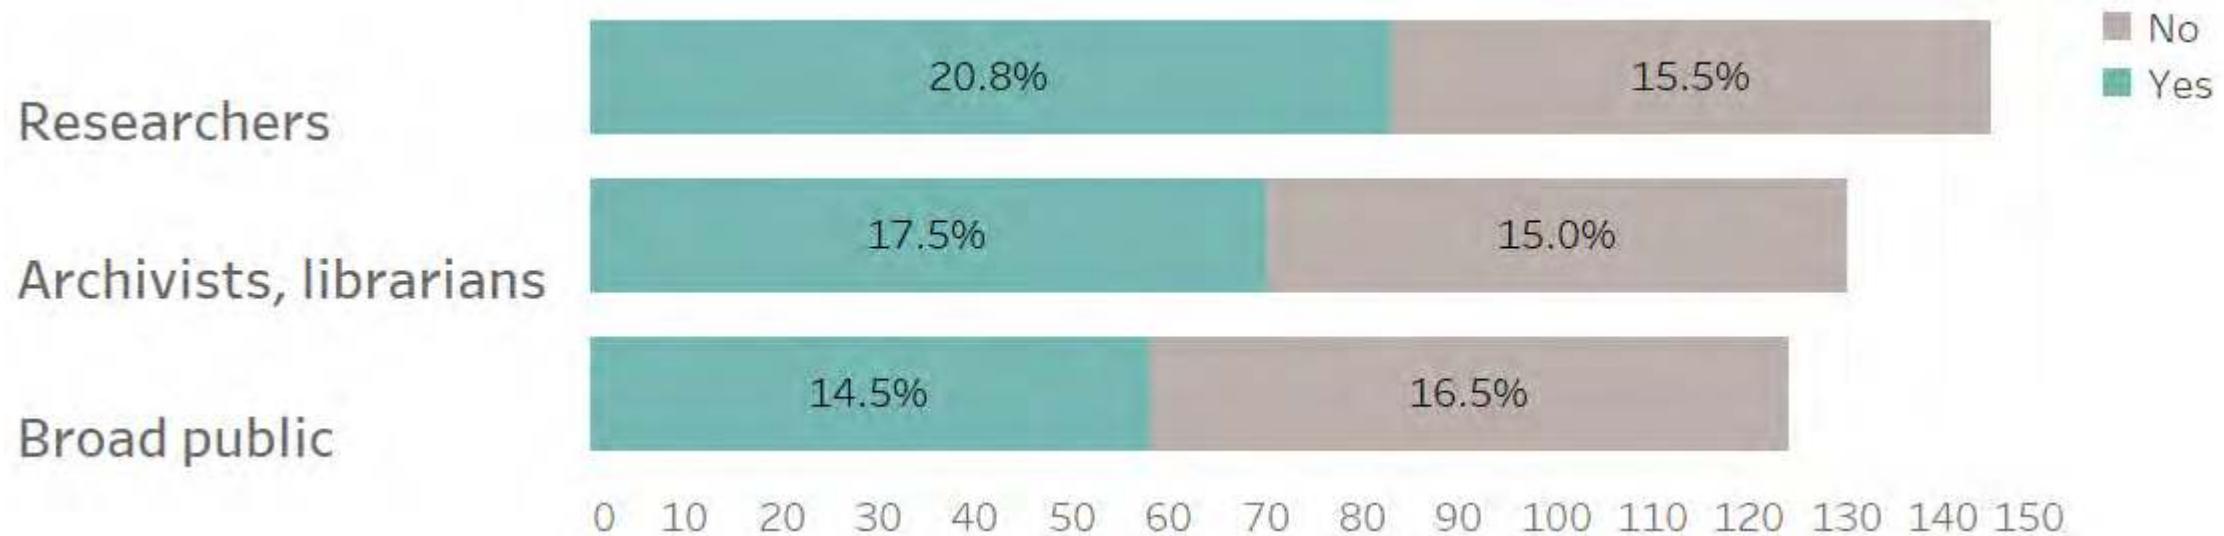

Can you provide an example of a web archive?

KBR

Have you ever used a web archive? n=399

KBR :

Why are you not using web archives? n=180

I didn't know of their existence.

No relevant data available in the web archive for my topic.

Access is (too) restricted.

Too difficult to work with (lack of research infrastructure).

Incomplete or inaccurate archived materials.

Other

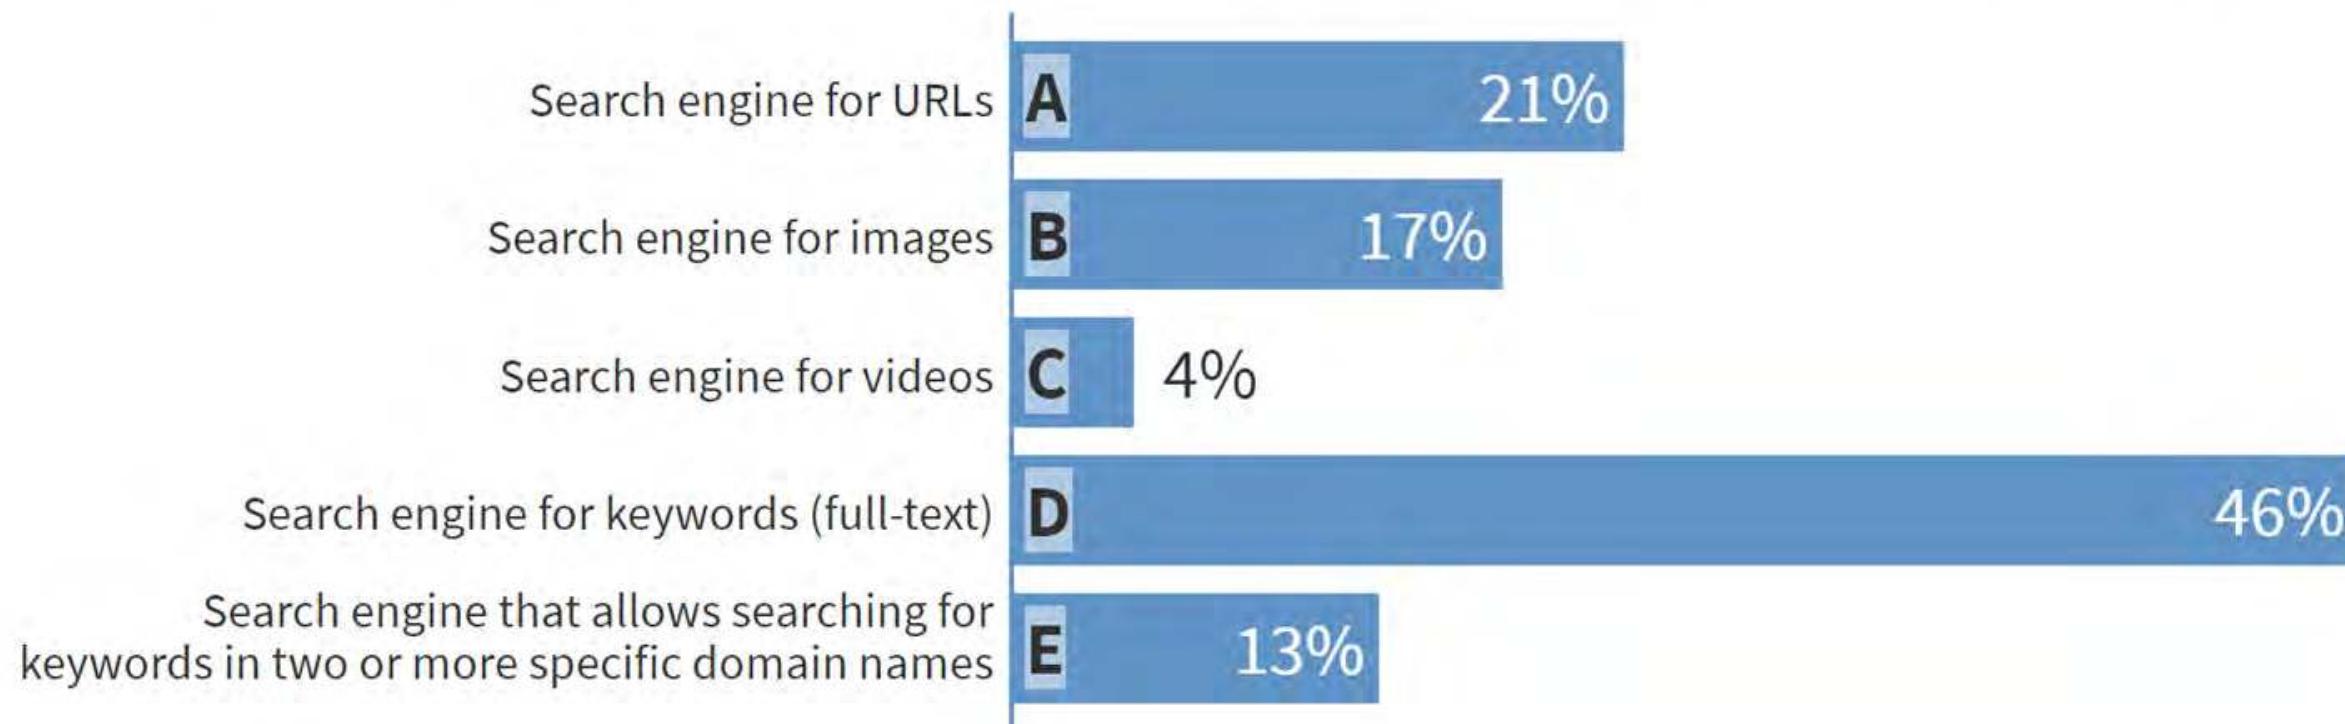

0 10 20 30 40 50 60 70 80 90

Respond at PollEv.com/friedelgeera923

Text **FRIEDELGEERA923** to **22333** once to join, then **A, B, C, D, or E**

Which search functionalities do you deem most important for the Belgian web archive? (max. 2 options)

Select the three most important web archive functionalities in your opinion.

n=290

(1)

Search engine for keywords

Search engine for images

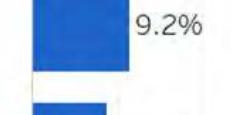

Collections of archived websites specific to my research area

The possibility to download data in multiple data formats

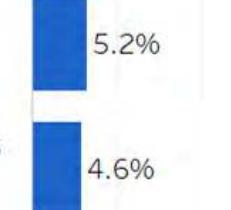

Search engine for URLs

The possibility to download data in multiple ways

Tools that help with the discovery of patterns, trends or relationships in data

KBR

Select the three most important web archive functionalities in your opinion.

n=290

(2)

A tool that enables the creation and extraction of a corpus from a larger collection

Overview of personal search history

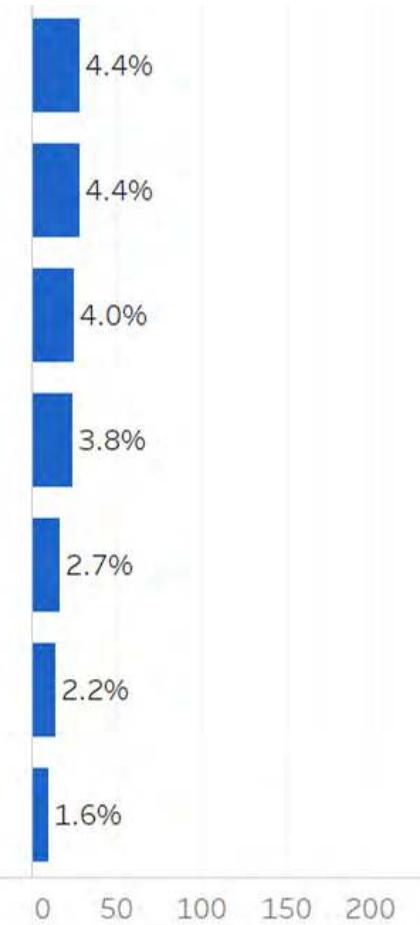

Tools that help me analyse the data

Side-by-side visualization of a website throughout the years

Search engine that allows searching for keywords in two or more specific URLs

Search engine for videos

Auto-completion of search fields in search engine

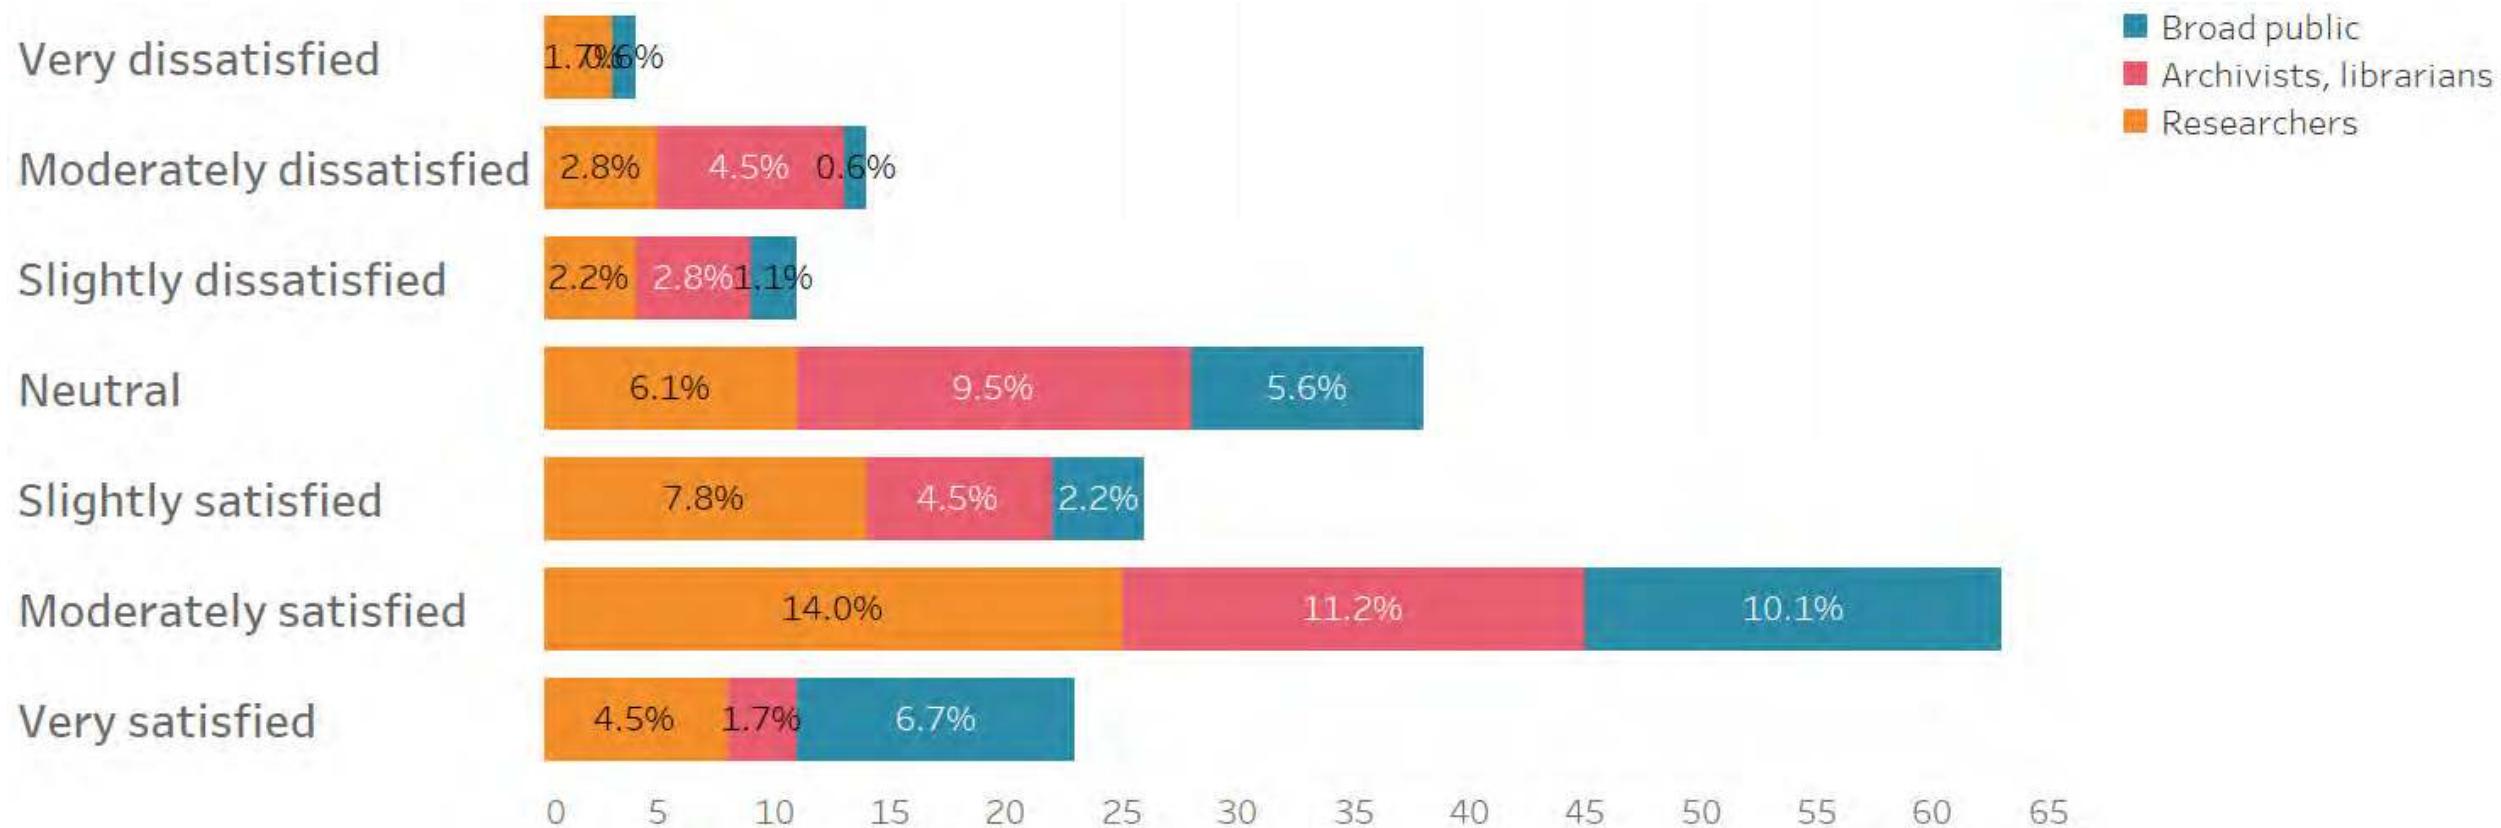

KBR

How satisfied are you with this or these webarchive(s)?

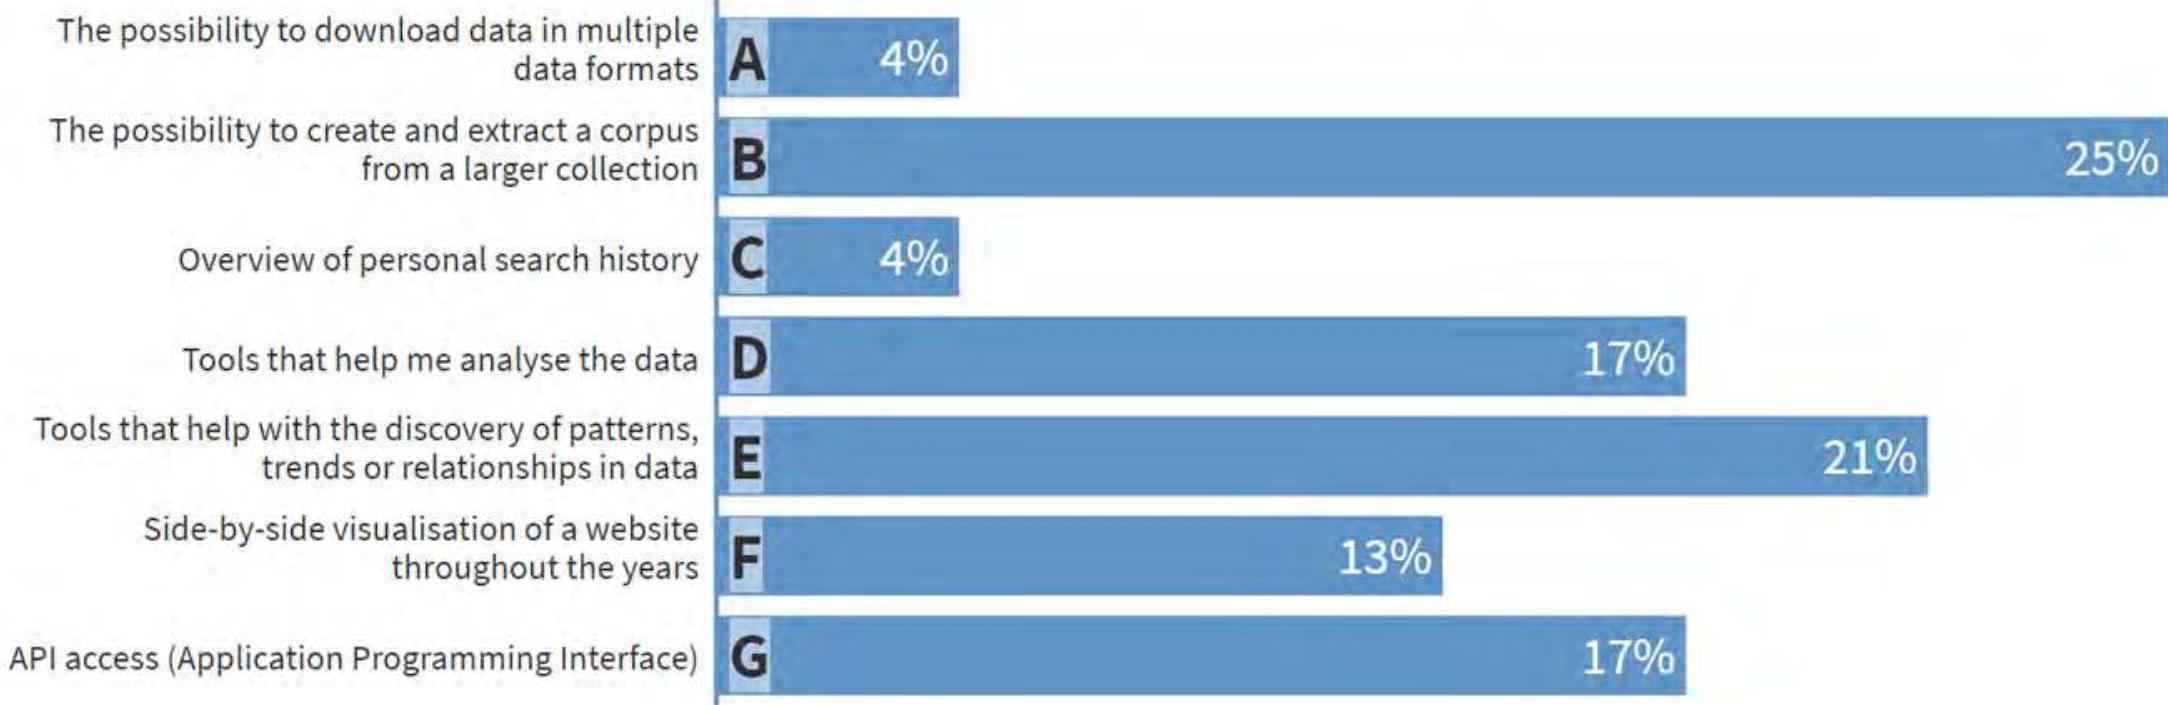

n=179

Respond at PollEv.com/friedelgeera923

Text **FRIEDELGEERA923** to **22333** once to join, then **A, B, C, D, E...**

Which other functionalities would you like to see in the Belgian web archive? (max. 3 options)

In working with data from web archives, what challenges have you faced? n=292

(1)

Challenges in accessing the data (e.g. web archive data was only available in the reading room).

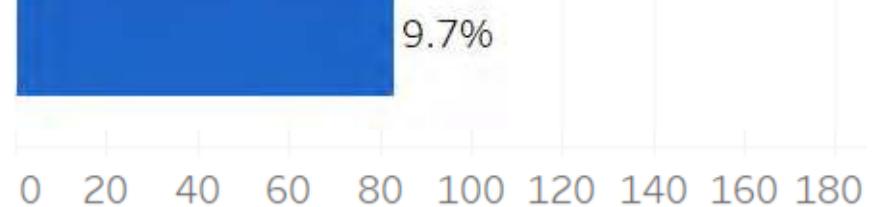

A lack of appropriate descriptive information about the web archives (e.g. lack of metadata).

Difficulty in finding relevant materials (e.g. limited search options).

Lack of content / collections in my research area.

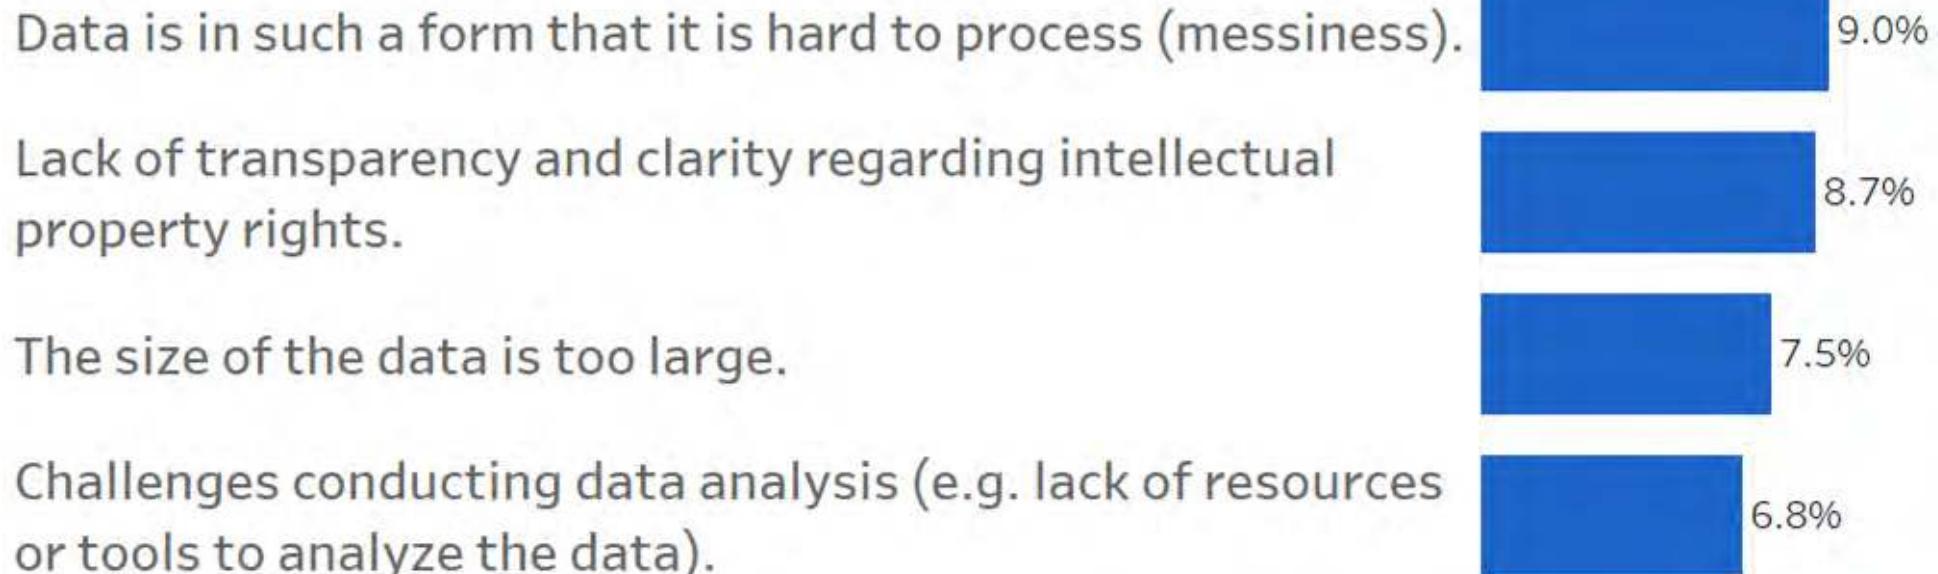

KBR

In working with data from web archives, what challenges have you faced? n=292

(2)

KBR

Other interesting topics:

- Use of data from web archives
- Most important methods of analysis
- Most helpful metadata
- Subjects or topics of most interest
- Contribution to the selection of material
- Format to download the data
- Receiving guidance
- Collecting own web archives
- Quality control

“Clearly Google is the norm for the participants. They expected a search engine to work on full text, just like Google.”

Ras, M., & Van Bussel, S. (2007). Web archiving user survey. Online at: https://www.kb.nl/sites/default/files/docs/kb_usersurvey_webarchive_en.pdf.

“Access and use (...) remains a perceived area of need. Likewise, metadata is identified as an area that would benefit from ongoing knowledge-sharing around best practices. Social media and quality assurance continue to be recognized as areas for which better and more accessible tools are needed.”

Bailey, J., Grotke, A., McCain, E., Moffatt, C., & Taylor, N. (2017). Web Archiving in the United States: A 2016 Survey. National Digital Stewardship Alliance. Online at: https://ndsa.org/documents/WebArchivingintheUnitedStates_A2016Survey.pdf.

“(...) better discoverability options for the archived content, data selection and management, as well as better access to more ways of analysing the data is needed.”
