ISNI Integration in Prepublication Metadata Workflows at the Library of Congress

**Caroline Saccucci
Chief, U.S. Programs, Law & Literature Division**

- Established in 1971 for the benefit of U.S. publishers and U.S. libraries
- Over 2,400 publishers and imprints
- Receive over 3,000 CIP requests per month in **PrePub Book Link (PPBL)**
- MARC records created and distributed for wider use and CIP data sent to publishers
- CIP requests generate thousands of new and updated name authority records

How can the CIP Program **automate** the workflow
and **increase** the number of ISBNs?

- ONIX metadata are parsed and stored in PPBL Products Table for lookups
- Add ISNI as a mapped field and add to PPBL Contributor Table

The screenshot shows a web application interface for adding a product. The form is titled "Products" and contains various input fields for product metadata. A red arrow points to the "Imprint Name" field.

Summary	A lively picture book! In to Automania, The Museum of Modern Art's new exhibition on cars and car culture Rosario Abigail Bergen Delgado loves cars. She knows everything there is to know about cars. And she can't wait until she can drive a car. But which one should she choose? A race car? A spy car? A purple, green, or blue car? It's impossible to pick just one! Featuring 10 cars from the collection of The Museum of Modern Art, New York, this book invites young readers to share Rosario's adventures and to think about what car is best for them, the environment, and the future. Rosario's final choice may surprise you!

- Map ISNI to each contributor field and add as URI
- Enable NACO lookup to determine if authority record needs to be created or updated
- Enable authority record creation from MARC Editor
- Enable macro to add formatted ISNI metadata field in NACO record

The screenshot displays the MARC Editor interface with the following elements:

- Tabs:** All Fields (selected), Contributors, Title Page, Volumes, Series, Publication, ISBNs, and an Add Field button.
- Field 020:** Two entries for ISBNs. The first has a value of 9781454938989, format 'print', and a note '(hardcover)'. The second has a value of 9781454939108 and format 'ebook'.
- Field 100:** Author field containing 'Larkin, Danny,' with a display indicator 'd' and an edition indicator 'e' set to 'author.'
- Field 245:** Title field containing 'Zodiac signs: scorpio :'. It includes subfields 'a' (the title), 'b' (a sign-by-sign guide /), and 'c' (Danny Larkin.).
- Field 263:** Publication year field containing '2001'.
- Field 264:** Publication information field containing 'New York : Sterling Publishing Co., Inc., 2020.'

A red arrow points to a yellow box containing the text '\$1' in the bottom right corner of the interface.

-
- Preassigned Control Number = Library of Congress Control Number (LCCN) assigned before publication
 - Over 17,000 authors, self-publishers, and traditional publishers participate
 - Over 4,500 PCN requests submitted per month in PPBL
 - PCN Program creates a brief bibliographic record for each publication and sends the LCCN to the publisher to print in the book
 - e.g. **Library of Congress Control Number: 2019012345**
 - No name authority records are created or updated at this stage

- Enable authors and publishers to enter ISNI and/or search in PCN requests
- Consider registration option?

The contributor is an:

Contributor Type * https://isni.org/page/search-database/)"/>

Additional Information

- Implement ONIX workflows for authors and publishers in PCN Program
- Add ISNI as a field and map to PPBL Contributor Table

The screenshot shows a web-based form for entering product information. The form is organized into several sections:

- Product Identification:** Includes fields for 'PRODUCT NUMBER' (270.0539402505) and 'PRODUCT NAME'.
- Title Information:** Includes 'Title' (CARS! CARS! CARS!), 'Title Type', and 'Subtitle' (Featuring Cars from the Collection of The Museum of Modern Art).
- Publication Details:** Includes 'Publication Date' (09/28/2021), 'Electronic Format Only' (BB), and 'Primary Language' (English).
- Publisher Information:** Includes 'Publisher' (Museum of Modern Art, New York), 'City of Publication', and 'Is Series' (checkbox).
- Language and Role:** Includes 'Language Code' (+09) and 'Language Role' (1).
- Summary:** A text area containing a book description about a picture book titled 'In to Automania'.
- Contributor Information:** Includes fields for 'Corporate Name', 'Contributor First Name', 'Contributor Last Name', 'Imprint Name' (highlighted with a red arrow), 'Series ID Type', and 'Title of Series'.
- Other Fields:** Includes 'Sequence Number', 'Subject Scheme Identifier', 'Subject Code', and 'Edition Number'.

Add ISNI to MARC Editor for PCN

- Map ONIX metadata, including ISNI, to MARC Editor
- ISNI converted to URI
- Metadata converts to MARC record in the ILS

The screenshot shows the MARC Editor interface with the following fields and values:

Field	Value
020 a	9781454938989 print (hardcover)
020 z	9781454939108 ebook (epub)
100 a	Larkin, Danny.
245 a	1 0 Zodiac signs: scorpio : a sign-by-sign guide / Danny Larkin.
263 a	2001
264 a	New York : Sterling Publishing Co., Inc., c 2020.

A yellow box highlights the '\$1' field, and an arrow points to it from the right.

- PCN MARC record not usually updated until published book is received, selected, and cataloged
- Catalogers do not use PPBL in post-publication cataloging workflows
- Macros would enable adding ISNI to NACO record
